Sohool Al Habiba Trading LLC

Founded: 2008

Location: Muscat, Oman

Sector: Civil Engineering & Infrastructure

Company Overview

Sohool Al Habiba Trading LLC (SAH) is a leading Omani company specializing in civil engineering and infrastructure services, with a strong focus on the oil and gas sector. Renowned for excellence, reliability, and innovation, SAH delivers high-quality solutions to major contractors across Oman, supporting the nation's industrial and economic growth.

Key Strengths

- ✓ **ISO-Certified:** Committed to international quality, safety, and environmental standards.
- ✓ **In-Country Value (ICV) Champion:** Prioritizing local talent, resources, and sustainable development.
- ✓ **Trusted Partner:** Recognized as a Local Community Contractor (LCC) and SME, offering agile, cost-effective solutions.
- ✓ **Efficient Execution:** Fast-track project delivery powered by a skilled workforce and advanced machinery.

VISION

"To lead Oman's energy infrastructure growth through sustainable innovation, unwavering commitment to safety, and maximizing local value. We strive to deliver world-class projects that empower Omani talent, adopt green practices, and uphold the highest HSE standards—ensuring progress that benefits both our clients and communities."

MISSION

We are committed to:

- ▶ Excellence in Execution: Delivering high-quality, cost-efficient projects on schedule.
- ▶ Safety & Sustainability: Operating with zero compromise on safety, environmental stewardship, and compliance.
- ▶ Trusted Partnerships: Building long-term client relationships through reliability, transparency, and superior performance.
- ▶ Innovation & Growth: Investing in cutting-edge technology, workforce development, and operational excellence.

OUR STRENGTH

State-of-the-Art Casting Yard in Adam

Specialization: High-Capacity Precast Concrete Production for Oil & Gas and Infrastructure

Key Capabilities

Large-Scale Production:

- ▶ Capacity to produce 800 cubic meters of concrete foundations monthly for oil & gas flowline projects.
- ▶ Equipped to manufacture diverse precast elements for infrastructure and urban development.

Advanced Machinery & Tools:

- ▶ Fully automated batching plants for precise mix designs and consistent quality.
- ▶ Vibratory tables, hydraulic molds, and advanced cutting tools for high-tolerance products.

SERVICE PORTFOLIO

Oil & Gas Infrastructure Development:

- ▶ Flowline foundations, trench covers, and pipeline supports.
- ▶ Heavy-duty blast-resistant barriers for industrial sites.

Roads & Urban Infrastructure Development:

- ▶ Streetlight posts (galvanized/painted).
- ▶ Hard barriers (Jersey, concrete crash barriers).
- ▶ Drainage channels (U-shaped, V-shaped) and culverts (box, circular).

Real Estate Development:

- Precast slabs (hollow core, solid panels).
- Wall units (retaining walls, boundary panels).
- Customizable architectural elements (façade cladding, decorative stones).

Quality & Compliance:

Materials: Locally sourced aggregates, adhering to ASTM, BS, and Omani standards.

Testing: In-house lab for slump tests, compressive strength, and corrosion resistance.

Certifications: ISO 9001 (Quality), ISO 14001 (Environmental), OHSAS 18001 (Safety).

OUR SERVICES

SAH specializes in a wide range of services for civil engineering and oil & gas sectors.

OIL & GAS FIELD SERVICES & STATION INFRASTRUCTURE

Expertise: End-to-End Flowline & Station Support Solutions

Core Services:

Flowline Foundation Installation:

- Scope: Site preparation, precision placement of pre-cast or cast-in-situ foundations, anchor bolt alignment, and grouting.
- Compliance: Meets API RP 1102 and ASME B31.4/8 standards.

Excavation, Sand Padding & Backfilling:

- Process: Trench excavation, sand padding, and mechanized backfilling with 95% Proctor density.
- Safety: Utility mapping, shoring, and confined space protocols.

Fencing Solutions (Type A, B, C & G):

- Type A (Chain Link): Perimeter security for non-critical zones.
- Type B (Welded Mesh): High-security areas (e.g., valve stations).
- Type C (Palisade): Intrusion-resistant for well pads.
- Type G (Water Effluent Discharge): Protection near wells.
- Standards: BS 1722 and Oman Civil Defence Regulations.

PDO MAINTENANCE & INTEGRITY CONTRACT SERVICES

Delivering Comprehensive Asset Preservation & Infrastructure Solutions

Core Service Offerings:

Sand Removal Operations

- Oil-Contaminated Sand: Safe extraction and disposal per PDO's HSE standards.
- Non-Oil Sand: Efficient removal and site restoration.

Specialized Fencing Solutions: Types A, B, and C, meeting PDO SP-1170 and BS EN 1090 standards.

Comprehensive Building Works: Concrete foundations, block work masonry, plastering, tiling, and painting.

Trenching Services:

- Depth: 30cm to 3m, with mechanized and manual excavation.
- Applications: Utility lines, pipeline access, and cable routing.

Shutdown Support Services: Rapid mobilization for pad extensions, equipment foundation repairs, and drainage modifications.

Critical Area Manual Excavation: Hand digging near live utilities for pipeline crossings and sensitive areas.

Contract Advantages

➤ PDO-Approved:

Compliant with Contractor Control Framework.

HSE Excellence:

100% PTW compliance, zero LTI track record.

ICV Focus: 85% Omanization rate.

Performance Highlights:

- Completed 250+ sand removal operations in 2023.
- Installed 8km of fencing across PDO concessions.
- Supported 12 major shutdowns with zero downtime.

EARTHWORKS & ROAD CONSTRUCTION

Building Energy Corridors for Oman's Oil & Gas Sector

Premier Graded Road Construction

Custom-Designed Road Networks

Well pad access roads
(10-ton/m² capacity).

Pipeline service roads
(6m clearance).

Heavy haulage routes
(up to 150-ton loads).

Precision Construction

- Geotechnical analysis with CBR testing.
- Structural layers: 300mm subbase, 200mm base course, 150mm gravel wearing course.
- Drainage systems: French drains, culverts, and berms.

CCED Concession Area Showcase: 200 km Strategic Energy Corridor

Scope: Connected Farha gas turbine, Saiwan facilities, and Shahd stations.

Achievements

- Completed 3 months ahead of schedule.
- 100% compliance with CCED Technical Specification 1452-REV3.
- Reduced PM10 emissions by 40% with dust control measures.
- Zero HSE incidents across 1.2 million man-hours.

Competitive Advantages

- **Technical Leadership:** BIM-enabled route planning, GPS-guided graders.
- **Operational Excellence:** 24/7 maintenance crews, GIS tracking.
- **Compliance:** PDO Category A, ISO 9001:2015, Ministry of Transport accredited.
- **ICV Contributions:** 92% Omanization, 65% local materials.

MANPOWER SUPPLY

Specialized Workforce for Oil & Gas Shutdowns & Maintenance

Deployment Scope

Trade Category	Key Roles	Certifications Held	Typical Scope of Work
Welding Teams	Pipe Welders, Structural Welders	CSWIP 3.1, ASME IX, BGAS Gr. 2	Pipeline repairs, spool fabrications
Instrumentation	E&I Technicians, Loop Testers	COMPEX, IECEx, ISA Certification	Control valve servicing, calibration
Mechanical Services	Fitters, Riggers, Millwrights	OPITO, IOSH, API 510/570	Pump overhauls, flange management
Civil Works	Masons, Carpenters, Steel Fixers	OSHA 30, NEBOSH Construction	Foundation repairs, structural formworks
HSE Oversight	HSE Officers, Confined Space Attendants	NEBOSH IGC, OSHA 501, H2S Alive	PTW control, safety monitoring

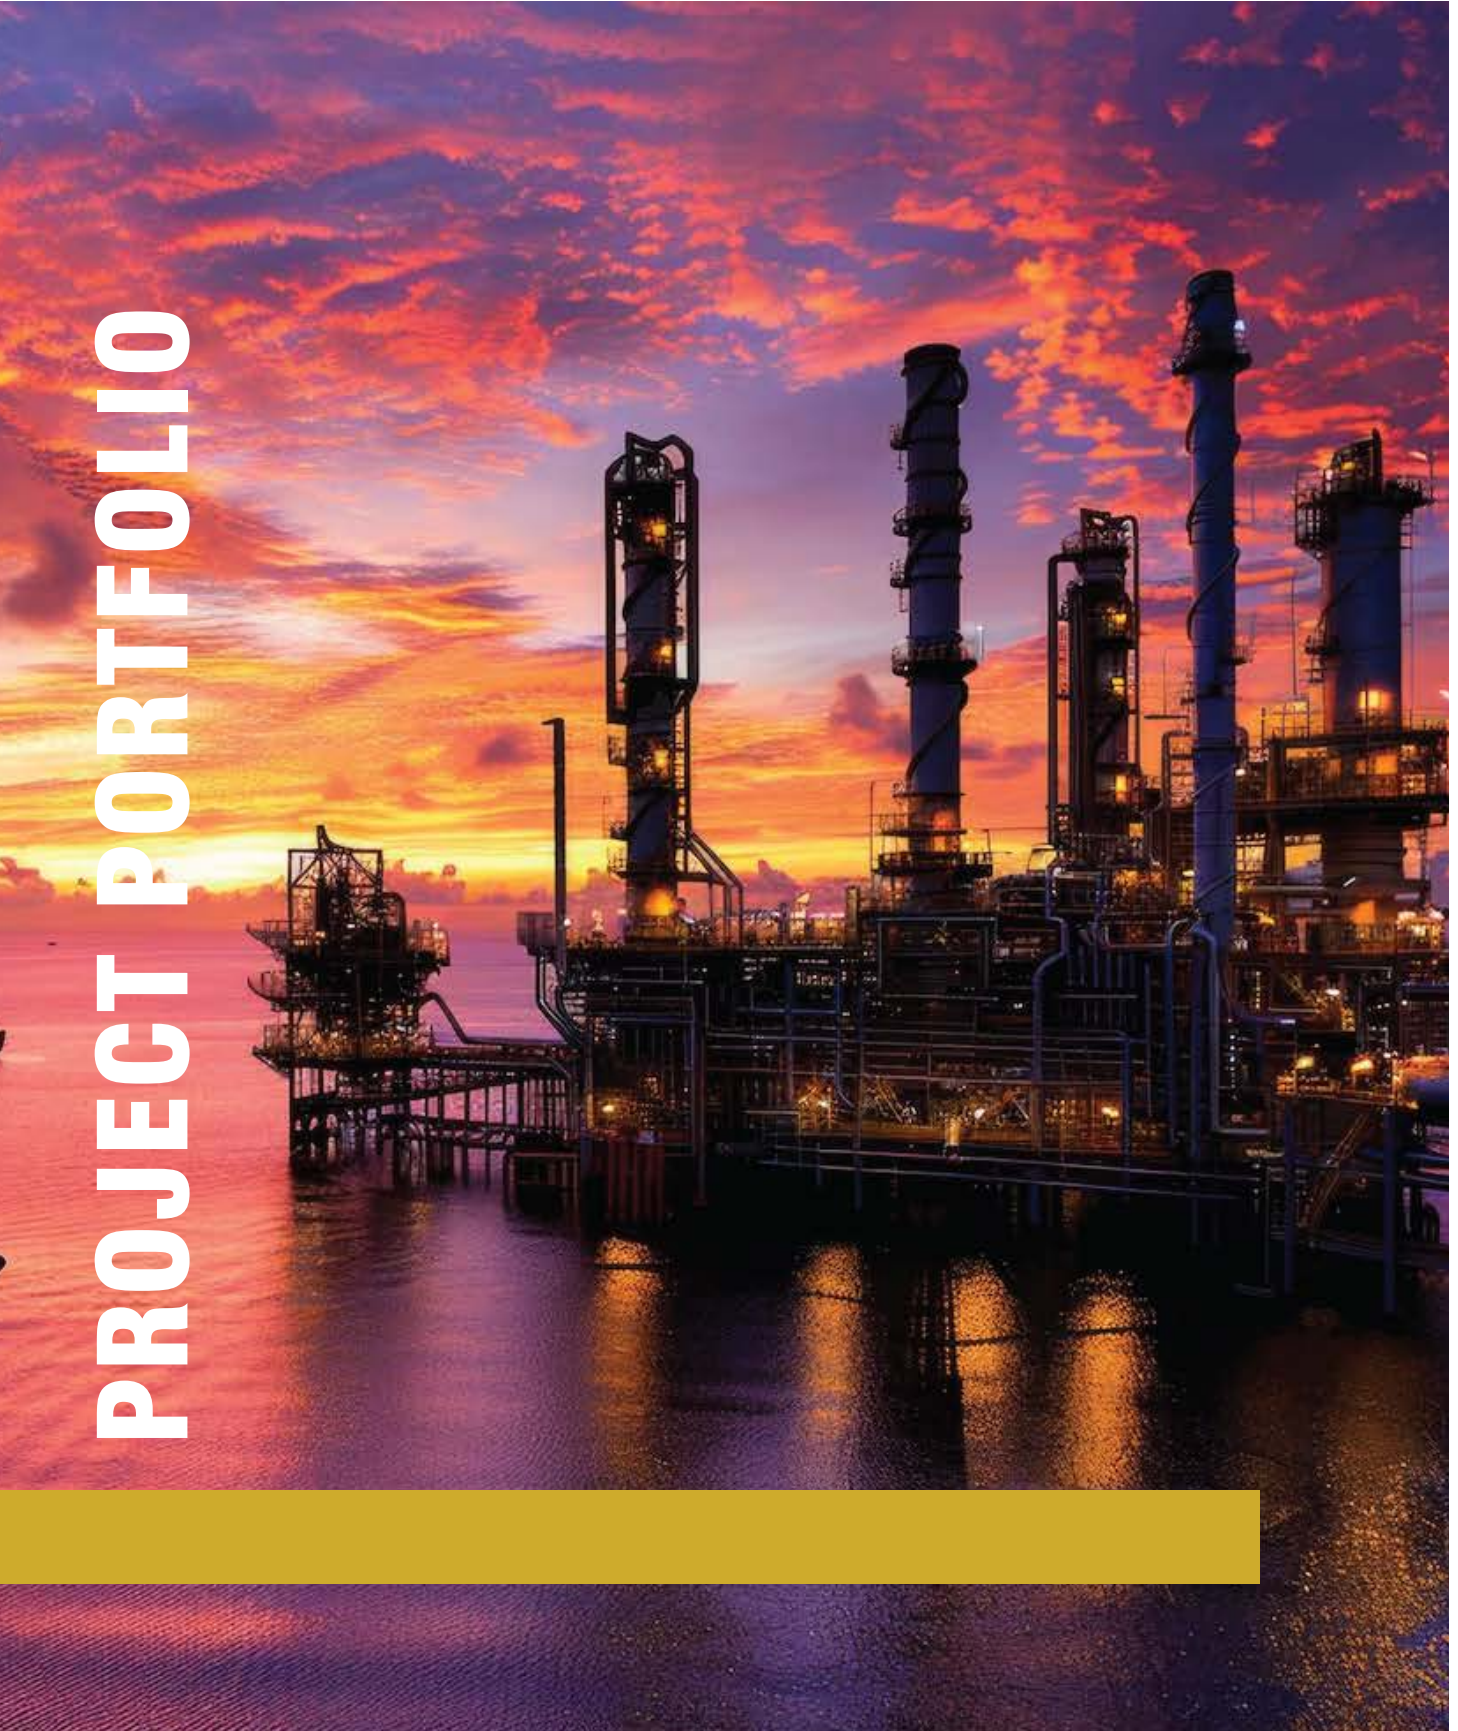

Operational Advantages

- **Rapid Mobilization:** 72-hour deployment for shutdown-critical roles, 200+ personnel on standby.
- **Quality Assurance:** 4-stage verification (competency testing, client orientation, HSE induction, shadowing).
- **Compliance:** PDO Manpower Standards, Omani Ministry of Labour, OPITO/OSHA requirements.
- **Workforce Analytics:** Digital tracking of certifications, productivity, and safety metrics.

Recent Project Experience

- **CCED Farha Gas Plant Shutdown (2023):** Supplied 85 skilled workers, zero LTIs, 22 critical tasks completed early.
- **PDO Saiwan Maintenance Campaign:** Deployed certified welders, executed 300+ safe work permits.

PROJECT PORTFOLIO

Precast Concrete Solutions

Key Clients: PDO, ARA Petroleum, Daleel Petroleum

Total Projects: 18+ | **Total Value:** OMR 3M+

Project	Scope	Location	Contractor	Status	Value (OMR)
Qarn Alam Sleeper Installation	5000+ concrete sleepers (SLB/SLG)	Fahud/Yibal	Galfar Engineering	Completed	1.2 M
ARA Petroleum Sleepers	Supply of 200+ sleepers	Adam Yard	Best Oil & Gas	Completed	.18 M
Lekhwair Precast Project	Pipe supports & anchors	Lekhwair	Arabian Industries	Completed	.15 M

Achievements: 100% PDO SP-1170 compliance, 30% cost savings via optimized sourcing.

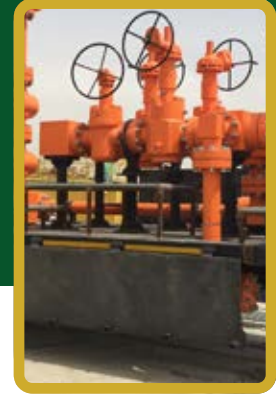

Graded Road Construction

Key Clients: CCED, PDO

Total Completed: 200+ km | **Total Value:** OMR 845,860+

Project	Scope	Location	Contractor	Status	Value (OMR)
CCED Mahoot Roads	45km all-weather access roads	Mahoot	UEP	Completed	.85 M
PDO Yibal Road Network	85km well pad access routes	Yibal	Galfar Engineering	Completed	.23 M

Highlights: Enabled 33kV OHL line installation, completed 3 months early with zero LTIs.

Fencing & Civil Works

Key Clients: PDO, Galfar

Total Projects: 12+ | **Total Value:** OMR 1.5M

Project	Scope	Location	Contractor	Status	Value (OMR)
Qarnalam Type-G Fencing	108 km Critical Area Fencing	Qarnalam	Galfar Engineering	Ongoing	1.3 M
PDO Yibal Perimeter	Type A/B fencing (5km)	Yibal	Arabian Industries	Completed	.28 M

Standards Met: BS 1722, PDO SP-2000, 30% Omani Workforce utilized.

Shutdown & Maintenance (PDO Contracts)

Key Clients: PDO, STS, Carillion Alawi

Active Contracts: 5+ | **Total Value:** OMR 1.5M+

Project	Scope	Location	Contractor	Status
PDO MIC-North	300 plus Civil Activities	Yibal/Qarn Alam	STS	Ongoing
South Cluster Camp Works	Civil refurbishment	Nimr, Marmul, Bahja	Anwar Fahud	Ongoing

Capabilities: 72-hour mobilization, 450,000+ man-hours with zero incidents.

Installation & Pipeline Support

Key Clients: Galfar Engineering

Contract Value: OMR 1.2M+

Project	Scope	Location	Key Deliverables
ODC Qarnalam Installation	480T steel supports + 7,200m ³ foundations	Qarnalam	IVMS-tracked logistics, RAS-certified equipment

CERTIFICATIONS & REGISTRATIONS

International Standards Compliance

ISO 9001:2015: Quality Management System.

ISO 14001:2015: Environmental Management Excellence.

ISO 45001:2018: Occupational Health & Safety Leadership.

Oman-Specific Credentials

JSRS Registered Contractor: Approved for PDO and energy sector projects.

Riyada SME Certified: Recognized by Oman's SME Development Authority.

Local Community Contractor (LCC): PDO-approved for ICV contribution.
